

COVID-19 SCREENING

Participants and Parents should know the common symptoms of COVID-19 and stay away if displaying symptoms. These symptoms include:

Most common symptoms:

- **fever**
- **dry cough**
- **tiredness**
- **Less common symptoms:**
- **aches and pains**
- **sore throat**
- **diarrhea**
- **conjunctivitis**
- **headache**
- **loss of taste or smell**
- **a rash on skin, or discolouration of fingers or toes**

Participants must stay home if they have been in contact with a known or presumptive case of COVID-19 in the previous 14 days.

Participants who live with high-risk individuals should consider their participation carefully.

Should a participant subsequently be diagnosed with COVID-19 within 14 days of participating in a basketball activity, they should notify the organizer as soon as possible and follow current govt. mandated recovery practices.

Thanks for your help during these difficult times :)

Stay safe,

Peter
